## **IMPORTANT MESSAGE**

\*\*\*\*\*

Dear Share Draft Member:

**Are you aware that the Credit Union's Routing and Transit Number is changing?**

### **How does this affect you?**

If you have anything automatically withdrawn from your share draft/checking account this number **MUST** be changed with them. (GAS, ELECTRIC, TELEPHONE, INSURANCE, MORTGAGE PAYMENTS, PAYPAL, etc. Just to name a few.) Please notify them that your bank information has changed.

You will need to order new Share drafts/checks.

### **What is the New ROUTING Number?**

**222379108.** This routing number belongs to the Credit Union. It is our clearing number.

**When ordering share drafts/ checks the bank information should pull up with our name and address.** (No longer payable through First Security State Bank.)

### **Does this affect your Account Number?**

Your account number will remain the same **61200000**                               . Each blank underlined space contains a number, for a total of **13 numbers**.

Example:

We appreciate how understanding you have been. This change was not of our doing. We were notified by our clearing bank in April 2009 that they will longer be providing check clearing/ach services. We are going with our own routing number so this will not happen again.

**Please begin changing this number immediately. We only have awhile before items will begin to be returned and you could be charged fees by the drawers for the returned items.**
